

Curriculum Vitae – Marc Linde

Marc Linde works in the risk management department of Generali in Germany, being responsible for actuarial calculations and business support for non-life insurers. Prior to joining Generali in 2019, Marc had been working for several actuarial consultancies (EMB Deutschland, Ernst & Young and BELTIOS P&C), where he had been involved in various implementation projects for internal non-life models and related approval processes for multinational insurance groups. Marc Linde became a qualified actuary in 2010, since 2013 he is member of the internal model working group within the DAV.

Marc regularly lectures on seminars of the German Actuarial Academy (DAA). He is (co-)author of several articles related to stochastic reserving and internal non-life models.

Marc is external doctoral student at the University of Ulm, researching on stochastic reserving and quantification of non-life insurance risks for multi-year time horizons.
